

Martock Footpath Y16- 08

This path runs from Coat House to join Path 07 at Grey Stone Drove

This path length (in miles) is 0.316

A mostly level, short path across fields, some grazed, with stiles.

Waypoint 09. (OS Grid Ref: ST 45223 20347)

A steel fingerpost on the road in Coat, by a gap in the wall, some 100 yards W of the Coat Road back to Martock, indicates the start of the path.

Looking south east from the road at the path entrance

14/09/2013

Looking north west towards the road

14/09/2013

The path entrance fingerpost

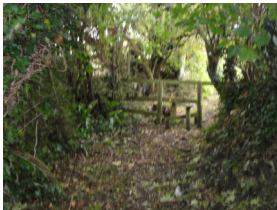

14/09/2013

A footpath SE, initially between buildings.

Waypoint 10. (OS Grid Ref: ST 45310 20247)

An old 2 step and 3 horizontal wooden stile.

Looking at the stile from the road direction

14/09/2013

Looking back north west at the stile

14/09/2013

From WP 10 to WP 11 the path is very narrow and runs SE beside a ditch, along the perimeter of a field . There are often cattle in the field, which is separated from the path by a post and wire fence, topped with a lot of fairly lethal barbed wire.

Waypoint 11. (OS Grid Ref: ST 45401 20133)

A new (2014) footbridge with animal barriers at each end. It needs clearing from time to time.

The new (2014) bridge looking south

14/09/2013

The new (2014) bridge looking north

14/09/2013

From WP 11 to WP 13 the path crosses the field, in a SE direction, to join up with Y16-07.

Martock Footpath Y16- 08

This path runs from Coat House to join Path 07 at Grey Stone Drove

This path length (in miles) is 0.316

A mostly level, short path across fields, some grazed, with stiles.

Waypoint 13. (OS Grid Ref: ST 45597 20008)

This waypoint is the junction of Y16-07 and Y16-08. There is a new (2014) 3 sleeper bridge that enables one to negotiate the ditch. Then immediately to the S there is an old 4 bar steel gate, supported by wooden posts, blocking the gap - with 2 new (2014) wooden steps over it. This needs clearing of brambles etc. from time to time.

Looking south at the bridge and gate

07/01/2015

Looking north at the gate, towards WP 11

16/01/2015

Y16-08 ends here, where it joins, Y16-07
