

Martock Footpath Y16- 36

This path runs from East Street Drove to Venn Lane

This path length (in miles) is 0.460

This level path is along a wide drove that is a public bridleway. It can be muddy in winter.

Waypoint A. (OS Grid Ref: ST 46778 19269)

The path starts at the E end of East Street. There is no indication of a path here, just the road heading E.

Looking west back at East Street

14/06/2013

Follow the track E the short distance to WP B, passing the fingerpost, pointing N on Y16-15. It is of bridleway dimensions; a rutted track with grass verges.

Waypoint B. (OS Grid Ref: ST 46882 19279)

At this waypoint there is a seriously locked steel barrier, gate-like. Its purpose is to stop potential fly tippers. Pedestrians and indeed riders of horses can gain access round the end of the barrier (it is part of a bridleway, which continues on to Foldhill Lane, along path Y16-16). In mid 2006 a wooden fingerpost was installed - "Foldhill Lane 3/4 mile".

Fingerpost

14/06/2013

Continue with the track E to WP C. It remains of bridleway dimensions; a rutted track with grass verges and grass in the middle.

Waypoint C. (OS Grid Ref: ST 47090 19240)

The waypoint is at the W edge of the former railway track, which is now hardly discernible.

Looking east

03/06/2013

Looking north to Y16-16

03/06/2013

Continue across the old railway track to WP D. To the S, between WPs C and D, a motor cycle dirt track was developed - it is now overgrown and long gone.

Martock Footpath Y16- 36

This path runs from East Street Drove to Venn Lane

This path length (in miles) is 0.460

This level path is along a wide drove that is a public bridleway. It can be muddy in winter.

Waypoint D. (OS Grid Ref: ST 47178 19229)

The waypoint is at the E edge of the former railway track, which is now hardly discernible.
